Pos. Frame

the Revolutionary **D.I.Y** poster display frame

Pos.Frame

There has never been a better time to let your creative juices flow and craft your very own "Do-It-Yourself" poster display with our novel **Pos.Frame** system. This extremely versatile system is formed using the latest injection moulding technology - the poster display unit is made from Plexiglass on a framed curvature with a removable soft polycarbonate protective lens.

Its elegant design, complete with concealed mounting brackets, makes it suitable for all kinds of internal application. It is lightweight and can be mounted virtually any way you desire - floor mounted, wall mounted, ceiling hung or simply placed on any counter / table top. **Pos.Frame** can also be mounted onto any surface, be it concrete, glass, steel, veneer or wood.

Pos.Frame is cleverly designed to facilitate easy poster installation or change with just 3 simple steps - use a suction cup to remove the protective lens, affix the poster and finally mount back the protective lens. No need to use studs or spring clips, unlike the conventional systems in the market place. So, kiss goodbye to blemished inserts, unsightly studs and/or tarnished, spoilt or misplaced spring clips.

By itself, **Pos.Frame** is already an attractive package. To make it even more aesthetically pleasing, you can enhance and integrate **Pos.Frame** with our modular systems such as **LED 2000** and **Omnipole** to create double or multi-faceted supports with coloured acrylic sheet, powder coated aluminium plate or stainless steel. Its translucent frame can also be internally illuminated - the glow at the rim of the display is certainly a captivating sight!

With its unique qualities, **Pos.Frame** blends in well with any environment. Indeed, our **Pos.Frame** system is used across industry spectrum in a wide variety of applications - advertisement display board, brochure display, direction/directory board, information board, menu board, notice bulletin, photo/picture frame or even as commemorative plaque.

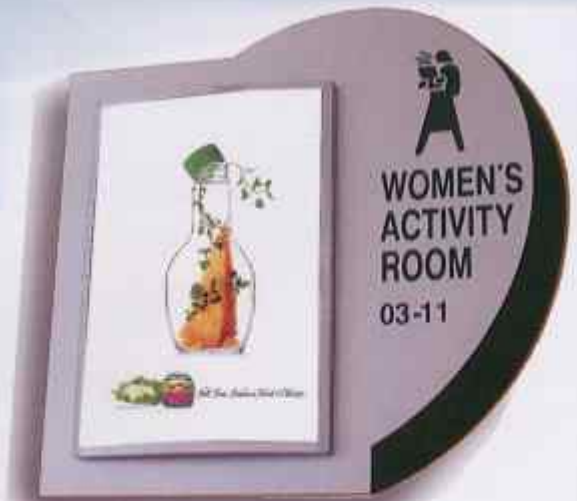

Pos.Frame is available in a variety of colours for the following standard sizes:

Item	External Dimension	Display Dimension	Paper Size
A1	922 x 670mm	842 x 576mm	842 x 596mm
A2	685 x 505mm	601 x 410mm	601 x 420mm
A3	485 x 365mm	422 x 290mm	422 x 300mm
A4	338 x 275mm	297 x 200mm	297 x 210mm
A5	240 x 180mm	211 x 147mm	211 x 150mm
